Thanks Bart.

I had already sent a response to the gentlemen.

Regards,

Joe Hubbard

Subject: RE: Wilcox Oil Site. - Question about RFPs

Sorry to respond so late, I was out of the country.

RFP ?

Do you mean Request for Proposals to conduct the initial characterization (RI/FS) for site remediation?

The site is very early in the Superfund Process. The site was just added to the NPL in December 2013.

Next step is to find Potential Responsible Parties (PRPs), and if we find them, notify them of their potential liability, invite them to negotiations for them to conduct the initial characterization, complete agreements for them to conduct the work, doing this work, etc., etc. This will take a long time, and if we have to do the work, it may be done under one of our existing contracts, subject to availability of funding to start.

At this time we don't know if this will be PRP lead, EPA lead, State lead.

In short, is very early to talk about RFPs issued by the PRPs, EPA or the state at this time.

FYI attached is a file of the many steps that we have to follow. (Todd (State RPM), you may want to

9565120

print this for your meeting at the end of the month, I am planning to attend.)

Hi Bart,

Please see question from citizen regarding Wilcox site.

Regards,

Joe Hubbard

Subject: Wilcox Oil Site.

Does the agency plan on hosting a RFP for the remediation of this site?
